# The Motivation

As a big fan of comic books, one of the biggest things I've heard from people who are interested in getting into it, is that they have no idea where to start. The comic book world can be an extremely convoluted place, confusing, and a daunting feat to enter. There were moments where I wish I had some sort of guide on where to start for some of my favorite books. I was thinking to myself, if I'm having this desire for a product like that, im sure theres a buncha nerds like myself hoping for the same thing.... And here we are!

# How it was made/how it works

## LaTeX

This was coded in LaTeX format, which is a document prep system, specifically a mark up language for high quality typesetting

## Overleaf/AI

I used the LaTeX editor Overleaf to host the PDF file. It is free!

Chat GPT helped with writing the code

## Interactive PDF

While it might just be a simple PDF file, it does have clickable links that take you to specific points in the file.

## Heavily Researched Data

All the data was manually compiled to ensure accuracy of information

# Future

For the future, My goal is to make an IOS app that goes way more in depth than this simple PDF guide.
